Forecast For The United Kingdom
Issued by Met Office Exeter
at 1600 on Sunday 13 Jun 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Very warm and sunny again tomorrow. Some rain in northwest.

This Evening and Tonight:
Rain moving southeast across northern areas, followed by clear spells and scattered showers. Central and southern parts dry with clear periods, but low cloud and mist affecting some western coasts.

Monday:
Sunny and hot in southeast England. Band of cloud and some rain or drizzle over northern England and Wales sinking south and fading. Breezy with scattered showers in the north.

Outlook for Tuesday to Thursday:
Rain developing later on Tuesday across the northwest with sunshine and a few showers following. Becoming locally hot in the southeast by Wednesday but with thunderstorms then developing into Thursday.
